ABOUT ALBERUNI TECH

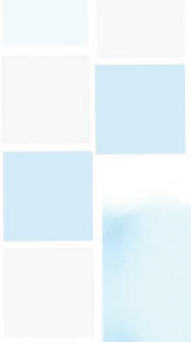

Alberuni Tech is a premier software house specializing in delivering sophisticated IT solutions and high-impact training programs. Serving both international and local markets, we excel in executing complex, high-level systems projects that drive innovation and operational excellence. Our expertise spans advanced software development, system integration, and tailored training designed to empower organizations and elevate technical proficiency. Committed to quality, precision, and strategic collaboration, Alberuni Tech is your trusted partner in navigating the evolving technology landscape with confidence and success.

OVERVIEW

Founded in 2011, our first venture, Sharp iTech, grew successfully and was acquired by US-based PayActiv in 2018. In the same year we launched Alberuni Tech Private Limited to continue delivering exceptional technology solutions.

Alberuni Tech combines deep technical expertise with a commitment to client success, applying innovative approaches to solve complex challenges. In addition to bespoke software and IT services, we also offer a dedicated training division that delivers practical, industry-aligned programs to up-skill teams and empower long-term client self-sufficiency. Our work is driven by quality, accountability, and the pursuit of measurable results.

WE ARE **DIFFERENT** ...FROM OTHERS

Alberuni Tech is not just a software development company; it is a mindset, thought process that endorses think differently and come up with out of the box solutions. We take great pride in promoting ingenuity and innovation are ideals that galvanize us.

Our people are the heart and soul of our company. We have some of the most established developers from the local IT industry in our team. Each team member is an accomplished professional possessing no less than 5 years of industry relevant experience.
